EDUCATION

Ontario Tech University

B.Eng in Software Engineering

Oshawa, Ontario

May 2026

- o **Concentrations:** Web Development and App Development
- o **Related Coursework:** Data Structures & Algorithms, Objects & Design, Computer Organization & Programming, Machine Learning, Artificial Intelligence, Object-Oriented Programming, Statistics & Applications

EXPERIENCE

Urbania Fashion (Mobsmart)

Full Stack Engineer

Delhi, India

May 2026 – Present

- Architected and developed the Mobsmart e-commerce platform from the ground up using React.js, Node.js, JavaScript, SQL, HTML, and CSS, delivering a scalable and responsive shopping experience.
- Designed and implemented RESTful APIs, database integrations, and secure authentication workflows to support customer account management and order processing.
- Applied technical **SEO** best practices, structured metadata, and performance optimization strategies, increasing organic traffic by approximately 40%.

New Excellent Televentures

Operational Head

Delhi, India

Jan 2026 – Present

- Led daily operations for a team of five employees, overseeing marketplace sales, inventory management, customer support, and fulfillment activities
- Manage seller operations across Amazon, Flipkart, and Shopsee, including product listings, pricing strategy, inventory synchronization, promotions, and order fulfillment.
- Analyzed sales performance, customer behavior, and marketplace metrics to identify growth opportunities and improve operational efficiency.

Walmart

Operations Assistant

Whitby, Ontario

Nov 2021 – Jan 2026

- Collaborated closely with department managers and leadership teams to support retail operations, merchandising strategies, and customer experience initiatives.
- Supported **cross-functional team activities** such as inventory audits, price checks, and special promotions, contributing to overall store success.
- Demonstrated **problem-solving abilities** by resolving customer issues in a timely manner and making decisions aligned with company standards.

PROJECTS

Checklist- AI Driven Requirements Engineering Platform

Team Lead

Oshawa, Ontario

Sep 2025 – Apr 2026

- Architected and developed a full-stack collaborative requirements engineering platform using **React, Vite, Supabase, PostgreSQL, and Vercel Serverless Functions**, enabling stakeholders to capture, organize, and prioritize software requirements.
- Built intelligent prioritization and conflict detection pipelines using **GPT-powered analysis** and the **MoSCoW prioritization framework**, enabling teams to identify conflicting requirements and rank project priorities.
- Integrated Sentence-BERT embeddings and **TF-IDF** similarity scoring to automatically detect duplicate and semantically related requirements
- Developed interactive dashboards supporting requirement clustering, stakeholder discussions, visual **KAOS goal modeling**, and export of prioritized requirements to **GitHub Issues** and **Jira** through REST APIs.

Smart Home App

Team Member

Oshawa, Ontario

Sep 2025 – Nov 2025

- Developed a **feature-rich Android smart home application** using **Kotlin** to control and monitor connected devices in real time.

- Implemented **secure user authentication** using **Firebase Authentication** to enable sign-up, login, and protected user sessions.
- Collaborated with a small team of developers using **GitHub version control**, contributing to commits, feature updates, and issue tracking.

Scooter Rental System

Oshawa, Ontario

Team Member

Sep 2025 – Dec 2025

- Designed and developed a **distributed e-scooter ride-sharing system** with an **Android mobile application** and a **React-based admin dashboard**, enabling real-time ride management and system monitoring.
- Integrated **GPS location tracking and QR code scanning** in the Android app to support scooter identification, ride initiation, and ride lifecycle management.
- Designed the system for **high availability and fault tolerance** using Firebase's multi-region replication, automatic failover, and graceful client-side error handling.

ACTIVITIES AND LEADERSHIP

TNI The Network Inc.

Whitby, Ontario

Student Fundraising Associate

May 2023 – July 2023

- Successfully managed and coordinated multiple fundraising campaigns with Red Cross and UNICEF, exceeding set **targets by 15%** through effective planning and execution

Hindu Student Association

Oshawa, Ontario

Member

Aug 2023 – Current

- Planning Executive of an organization of **30+ members**, hosting religious events, managing a board of executives, and reaching out to the underprivileged communities.
